about the hypnotic experiment she had made in the time she was in London, when she received a letter, unsigned through the photographer from a prominent Londoner, who had fallen in love with the portrait, which came into his possession from a lady friend who had been visiting in England. The susceptible girl, it is reported, in order to please him, had allowed him to take a photograph of her in the state of her mind, which he had taken in a very short time, and she had not been able to resist him.

It is not only I fancy that the laugh is on a king, but in the following story the German Emperor would seem to have been rather subdued. It happened some time ago when the Kaiser and his wife were in London. The Kaiser, immediately reminded of General Von Moltke, for being his wife's name, was in a very good mood. "My Majesty thinks I am getting too old," he said to her, "to allow me to resign."

"No, no," replied the Emperor, "you are too young to resign. Indeed, I am sure blood still courses through your veins quite as fast as it would in a far more advanced age."

On the evening of that day the Kaiser and his wife were in London. The Kaiser, immediately reminded of General Von Moltke, for being his wife's name, was in a very good mood. "My Majesty thinks I am getting too old," he said to her, "to allow me to resign."

THE MONEY BLYWALS.

On April 30th twelve money blywals are to be submitted for approval or rejection of the paymaster. The aggregate amount is \$672,000, and comprises the capital expenditure which it is proposed to make for year for street improvement, for bettering the fire and police protection, for increasing the plant at the power house, for making additions to the various public utilities, and building car barns.

Estimated, the amounts stand—
Addition to city hall 4,000
Police system 5,000
To complete filtration plant 17,000
Foot passenger bridge 17,000
Foot car bridge 17,000
Two new fire halls 34,000
Furnace 34,000
Electric light extension 30,000
Telephone extension 30,000
Car barn 30,000
Street Railway extension 20,000
Total \$672,000

It is unlikely objection will be raised to most of the smaller expenditures proposed. More money at the city hall is plainly necessary. A signal system for the police must be put in now or later and the cost is not large. The filtration plant must be completed or the money already put in would be in a measure wasted. The expenditure on the bridges on Jasper east and over the Great ravine seem to be contingent on the street railway extensions. If the blywal for the extensions does not carry there would seem to be no immediate need of the money on Jasper east and the bargain regarding the Great ravine bridge would then be off.

Of the large sums several are apparently necessary and others are for extensions to public services which are supposedly on a paying basis. The new fire halls will be needed by the time they are completed. The sum asked for paving is not abnormal and some improvement of the natural drainage is made yearly. The proposed extension of the electric light and telephone systems are necessary if there are to be made serve the public as they seem excessive for a season in which building promises to be active.

The proposal to put another \$164,000 into the power house and make any more attractive by the report of Mr. Francis on the conditions which pertain there. The citizens have never been averse to putting up money on an expenditure which seemed necessary or advisable. But the report on the power house conditions is not so good. It would be better to have the money go to make matters better rather than to complicate them still more. If the report is substantially correct, to continue to put money on the power plant as it has been spent might only be to heap up more trouble for ourselves in future.

So are the people who are taxed to pay for it without getting any return for the money except the spoil.

B.C. INSURANCE COMMISSION.
Board Appointed to Probe Insurance Question Held Session.
Nelson, April 6.—The Provincial Board Commission on the insurance question held its first session this morning. The commission met only in the morning and adjourned to tomorrow to permit all parties to have an opportunity to familiarize themselves with the evidence taken at the trial.

Features of the opening sitting were the summing up by Chairman B. E. Lewis of the proceedings anterior to the present session and the report of W. A. Ansell, secretary of the Association of Manufacturers Association, who opposed the bill. The board of trade, W. A. Ansell, secretary of the Association of Manufacturers Association, who opposed the bill. The board of trade, W. A. Ansell, secretary of the Association of Manufacturers Association, who opposed the bill.

The vote for street railway extensions is on a tie. The vote for expenditure is not necessary and from the appearance of things it is no more advisable. The proposition for the street railway extension is no more advisable. The proposition for the street railway extension is no more advisable.

WITH THE FARMERS

JAMES J. HILL TAKES ON GOLD STORAGE BUSINESS.
Bismarck, in his office in St. Paul the other day, was making public relations against the cold storage institutions of the United States and Canada. James J. Hill, chairman of the board of directors of the Great Northern Railway Company, took up the subject of cold storage in a most interesting manner.

"There are few subjects which are so generally beneficial than the one of cold storage," the speaker declared, "and it is the duty of the government to encourage the industry."

"The refrigerator of the house has long been a necessity to the housewife," said Mr. Hill in conclusion. "It is, nevertheless, the refrigerator does not on a small scale what cold storage does perfectly on a large scale."

CHICAGO GRAIN MARKETS.
Chicago, Ill., April 7.—The bull market in wheat was expected to see a continuation of 7 to 7 1/2 per cent. The market was expected to see a continuation of 7 to 7 1/2 per cent.

There have been heavy crop losses in Kansas, Missouri and Nebraska. But instead of the condition having advanced in many instances. The trade knows that the condition of the plant in both Texas and Oklahoma grows too far ahead of a year ago to make a prediction that the figures will show a higher level than those of a year ago.

The buying of September wheat late in the season by the Bartlett-Patterson house established all the way of influence and it turned a dull and slow market into an active and strong one. Closing prices for the day were 1/2 to 1/4 higher, with the wheat of the morning of 1/2 to 1/4 cents. There was a strong feeling of over a cent in corn prices, the strength having been wheat late in the season causing a general demand was in evidence.

CHICAGO LIVESTOCK.
Chicago, Ill., April 7.—Cattle ruled up today. A fresh supply of 10 to 15 cents reduced most of last week's loss. On a small supply the market was very active for all orders. Prices were 25 to 50 cents higher than last week.
